## The ACE Plan Helps Leaders To:

1. Identify the root cause(s) of low school performance,
2. Define the ideal initiative/plan(s) required to resolve each issue,
3. Collaboratively work with leaders/leadership teams to put solutions in context, and engage in continuous cycles of improvement,
4. Layer solutions into current school improvement plans/WASC recommendations,
5. Identify, support and expand best first instructional practices, and
6. Institutionalize systemic school-wide improvements.
